

Jabra Link 14201-44

Remote call control for your NEC deskphone

The Jabra Link 14201-44 enables remote Electronic Hook Switch Control (EHS) with Jabra wireless headsets and NEC DT-330, DT-430, DT-730 and DT-830 desk phones¹.

With the EHS functionality embedded in Jabra wireless headsets, users can boost their productivity with the ability to answer and end a call, while away from their desk.

Benefit from enhanced mobility

The EHS adapter allows users to answer and end calls or hear ring tones² all from their headset, which is quite convenient when they are up to 150 meters/490 feet away from their desk. The integration of the desk phone and the headset allows users to benefit from enhanced mobility and the ability to multitask while on a call. The wireless freedom improves work efficiency and ergonomics throughout the day.

How it works

The Jabra Link 14201-44 converts signals from the EHS standard used in NEC desk phones to the Jabra IQ™ standard used in Jabra headsets – and vice versa. Thereby allowing the Jabra headset to remotely manage the desk phone¹.

Compatibility

The Jabra Link 14201-44 is compatible with the NEC DT-330, DT-430, DT-730 and DT-830 desk phones¹ and most Jabra wireless headsets. For more details see the specifications on page 2.

Works with desk phones

Reasons to choose

Jabra Link 14201-44

- For NEC desk phones providing EHS functionality¹
- Call control from your wireless headset up to 150m/490ft from your desk
- Answer or end calls, hear ring tones², adjust the volume³, mute your call from the headset³

Jabra Link 14201-44 - How to connect

Easy to connect

1. Connect the 4wire audio cable from NEC phone to the headset base (not included with Jabra Link 14201-44).
2. Connect Link 14201-44 to the side NEC port side 1 connector.
3. Connect Link 14201-44 to the headset AUX port on Jabra headset base.

Easy to upgrade

The Jabra Link 14201-44 is software upgradable. Simply connect a micro-to-standard-USB cable between the Jabra Link 14201-44 and your computer's USB port. Update the firmware through Jabra Direct for Windows (www.jabra.com/direct) or Jabra Suite for Mac (www.jabra.com/macsuite).

Technical specifications

Description	The Jabra Link 14201-44 enables Electronic Hook Switch Control between NEC desk phones ¹ and Jabra headsets
Item number	14201-44
