

ADDASOUND

SOUND CHANGING THE WORLD

INSPIRE 18

Advanced dual-microphone noise-canceling Bluetooth headset. Free your hands, enable mobile office, and block out the noise around you, allowing the other party in the call to only hear your voice.

Works with:

Mobilephone Tablet PC

INSPIRE18 is a Bluetooth headset with a Bluetooth adapter, designed specifically for office use, working from home in noisy environments, and UC users. With outstanding noise reduction and dual microphone capabilities. It helps block out nearby speakers' voices and filters out most background noise, allowing users on the other side of the terminal to hear the conversation clearly without any annoying background noise. It enables you to freely sit at your desk or even walk around while talking, creating an ideal and comfortable working environment. Inspire18 features dual connectivity, allowing you to easily switch between mobile devices and PCs. You can effortlessly deploy the Bluetooth adapter with plug-and-play convenience. Enjoy wireless freedom with this ideal companion!

Features

- Exceptional dual-microphone noise-canceling technology filters out most background noise, providing secure communication.
- Neodymium magnet speakers deliver more powerful and immersive sound.
- Ergonomic design and protein leather ear cushions provide all-day comfort.
- Hands-free operation with a wireless communication range of up to 30 meters.
- Plug-and-play deployment on PC via Bluetooth adapter or USB cable.
- Simultaneously connect to two Bluetooth devices, with the ability to remember up to eight devices.
- Automatically activate voice prompts to notify you of operational status and battery level.
- Up to 22 hours of talk time, with power-saving design that automatically turns off the headset after 5 minutes of no Bluetooth connection.
- Effortlessly manage call and music controls, Bluetooth pairing, volume+, volume-, and mute the headset.
- Includes a headset pouch for travel or home storage.

Talk Time	Standby Time	Communication Distance	Bluetooth Technology
22 hours	15 days	Up to 30 meters	Bluetooth v.5.2, A2DP, AVRCP, HFP, HSP
Speaker Sensitivity	Speaker Frequency Response	Charging Time	Microphone Technology
102dB±3dB	20-20kHz	3 hours	Noise reduction is achieved by using 2 MEMS microphones
Microphone Frequency	Microphone Sensitivity	Battery Level	Battery Type
20Hz-14kHz	-38dB±3dB	Fully charged 280mAH	Rechargeable, non-replaceable polymer lithium batteries
Hearing Protection	Call Controls	Media Control	Voice Notifications
Sound adjustment is performed when the volume exceeds 118dB to create a comfortable listening environment and protect your hearing health	Answer/End, Reject, Redial, Mute, Volume +/-	Previous/Next/Play/Pause	Power On/Off, Mute On/Off, Connect, Disconnect, Pairing, Battery Level
